## Pre-1650 English Political Economic History

### Midterm Exam Review:

The midterm exam is an open textbook exam. There is a midterm textbook available for purchase at 文苑 (2625 – 5177). Students may bring ONLY the textbook to the exam. No extra sheets of paper, calculators, or cell phones may be brought with you to the exam. Only the textbook may be brought with you.

\* Students may write in English or Chinese. However, I suggest, that since our articles/books are in English, students write their answers in English to avoid translation problems in grading.

There are 4 chapters in the midterm textbook.

Below are my suggestions for preparing for the midterm exam based on the textbook.

- 1) In Chapter 1, students should understand the general timeline of English history.
- 2) In Chapter 2, students should understand the names and eras of the Stuart Kings/Queens of England..
- 3) In Chapter 3, students should understand the major acts passed around the mid-17<sup>th</sup> century.
- 4) In Chapter 4, students should know that the major events and accomplishments/failures of both reigns – that of Charles II and James II after the Restoration.
- 5) Other questions.
